

## The Fragrance Trends for 2015 Spring & Summer

### According to the seven scents:

**Fresh Green** fresh, green, lightly tart and red berry note, rhubarb blends with fruity and floral aromas to create a subtle sharpness. **HK 00129 Gardenia**

**HK 00152 COOL WATER ,**

**Mint** Cool feeling and green note and a hint of spice with scents of natural

**Tea** Focus on tea delivers a fresh and floral character

**Nature** Inspired by nature floral aromas combine with fresh, green notes to create a lush, elegant and carefree character

**Woody and earthy** bold and vibrant, this heady fragrance blends woody, spicy and earthy notes to evoke travel to distant places

**Oceanic** fresh sea breezes mix with salty waves to create a fluid scent with nuances of white tea and cool ozone, resting on submerged driftwood, musk and sea moss.

**Metallic** This fragrance is built around a strong amber base and combination of sensual musk and dry spices.
